### **HISTORY**

La Brunante was created in November 1982 by the Board of Directors of the 10<sup>th</sup> Nuit sur l'étang (1983). The first edition of la Brunante was presented to a sell-out crowd at Alphonse-Raymond Auditorium at the French language School of Education. Since 1982, la Brunante has experienced a variety of formats and editions. Yet, the goal has been consistent from the beginning: to train and promote young artistic talent. In nearly 40 years of work, more than 400 artists have attended the workshops. Many have gone on to professional careers or have become leaders in the French communities and organizations across Canada.

Join us in celebrating the return of La Brunante and a new start following Covid challenges.
